

KNOWLEDGE

- Languages
- Java, TypeScript, JavaScript, SQL, PL/SQL, JSON
- Backend & Microservices
- Spring boot, JavaEE, JPA, Hibernate, JSF, Node.js
- Frontend & Mobile
- NextJS, Angular, HTML/CSS/Tailwind, Ionic, React Native
- Bases de datos & Cloud
- PostgreSQL, MySQL, Firebase, Azure, AWS, Docker
- DevOps & CI/CD
- Jenkins, Azure DevOps, Git, Sonar
- Herramientas & Testing
- Maven, Gradle, Trello, UML, JMeter
- Arquitectura y Buenas prácticas
- Clean Architecture, Hexagonal, CQRS, TDD, DDD
- Metodologías
- Scrum, Kanban, Agile

EDUCATION

Universidad de las Fuerzas Armadas ESPE

Systems and Computer Engineering

CERTIFICATIONS

Blockchain & Back-end

- Solidity Blockchain Developer
- Blockchain School & Criptomonedas
- Decentralized Application Architecture on Ethereum
- Best practices for smart contract integration with frontend and testing on Ethereum
- Java & Design Programming, Oracle Academy
- Coursework & Training Java Oracle methodology
- Best Practices and Architecture
- Arquitectura Hexagonal
- Use of hexagonal architecture with a DDD approach
- Certified Scrum Developer®
- Scrum Alliance (lushinagua)

Scrum Master Professional Certificate - SMPC®

Credly

Seguridad & Calidad de software

- Cyber Security Crash, Udemy
- Best practices of cyber security crash in production systems.
- Testing de Software, Edutin Academy
- Delaware EEUU
- Analysis, development, and methodologies for system testing

EXPERIENCE

- > WEB3
- Mode Network
- Tech-Cooperator
- 2023 - 2025
- Medellín, COL
- Created developer-focused content and technical documentation
 - Supported onboarding flows with simplified UX for dApps
 - Led workshops and community support initiatives
 - Promoted ModeSpray and ecosystem tools to drive adoption
- Push Protocol
- LATAM Ambassador
- 2023 - 2025
- Medellín, COL
- Led Spanish-language workshops and integration guides for Push Chat and Notifications
 - Created technical threads, tutorials, and example projects
 - Represented Push at community events and governance discussions
 - Helped onboard developers and dApps into the protocol
- > WEB2

Ceiba <> Suramericana

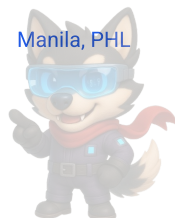

- Software Developer Architech / Technical Designer
- 2022 - Currently .
- Medellín, COL
- AI Mobility Quotation
 - Collaboration in designing WhatsApp integration flow (templates, buttons, interactive menus)
 - Definition of microservices, validations, and responses
 - Ensuring connectivity with banking APIs
 - User prompt processing before authorizing operations
 - Deployment in isolated environments
 - Raizales Autonomy
 - System and log analysis to identify root causes of failures and performance degradation
 - Application of techniques like 5 Whys and fault tree analysis
 - Proposing changes to eliminate or mitigate tight coupling
 - Developing and deploying patches or refactors to address root issues
 - Plan Vive
 - Domain modeling
 - Validation of CI/CD deployments in staging environments
 - Ensuring coverage of unit, integration, and performance tests to validate scalability
 - WebLogic Oracle Migration
 - Analysis and design of train and wagon structure for WebLogic migration
 - Review of coding standards
 - Support in deployments and user training
 - Servbees System – ADN Ceiba (Java)
 - Development using hexagonal architecture with DDD approach to ensure backend maintainability
 - Frontend implemented with a core/share/feature architecture
 - Static code analysis and test execution to ensure quality

Geeklist, Inc.

- Frontend Developer
- 2022 - 2023
- San Francisco, CA
- Geeklist
 - Web 3.0 application for IT professionals
 - Frontend built with a conventional Next.js architecture combining SSR and CSR for fast loading

LX Mobile

- Software Developer Engineer
- 2021 - 2022
- LX Mobile Application
 - Development with N-layer architecture for maintainability
 - Mobile frontend built with React Native
 - Static code analysis, unit testing, and end-to-end testing

Luis Fernando Ushiña

Software Developer Web3

Community-focused Web3 developer creating tools and content that simplify adoption through technical precision, gamification, and great UX.

Software Developer Architect | Fullstack Developer | Certified Scrum Developer®
Web3, Ethereum & Blockchain Developer | Scrum Master Professional Certificate - SMPC®
